Honorable Linda R. Ramirez,  
Webb County Commissioner, Precinct #1  
1000 Houston Street, 1st Floor  
Laredo, Texas 78040

Ref: **Mirando City Drainage Study – Linder Avenue  
Proposal for Engineering and Surveying Services**

Commissioner Ramirez,

At your request, we are pleased to provide the following proposal for engineering services on the above referenced project. We understand that this project involves preparing topographic surveys of a residential area in Mirando City, as delineated in the attached exhibit. As your Planning Department explained, this area has drainage and ponding problems that should be revealed with field survey of the surrounding streets, house finished floor elevations, and natural drainage courses. After processing the survey we will develop 2 to 3 drainage solution options with associated exhibits and construction cost estimates. This information will be presented with a brief description of our recommendations in a sealed report for County consideration.

**We propose to provide these services for \$5,500.00.** This fee does not include the preparation of construction plans, LOMRs, or any service not specifically stated above. If those services are subsequently required for this project, we will coordinate a separate proposal and credit the County the above cost towards our engineering design fees. We expect the report to be complete within one (1) month of receiving written authorization to proceed. The County may be required to coordinate access to the residential sites within the project area.

We appreciate the opportunity to provide this proposal.

Sincerely,

Wayne Nance, PE, RPLS
