September 11, 2014

Mr. Joe Gutierrez  
Webb County Sheriff's Office  
902 Victoria Street  
Laredo, TX 78042

Dear Mr. Gutierrez:

The L-3 Communications Mobile-Vision, Inc. AlertVU LPR, V-One All-In-One Computer, Flashback, Flashback2 and Flashback3 DVR, along with AirVision, CycleVision and Interview Room products and all associated spare parts and accessories are designed and manufactured exclusively by L-3 Communications Mobile-Vision, Inc. and are not available from another source. In addition, all Extended Warranty Services, repair and warranty claims are managed exclusively by L-3 Mobile-Vision.

The Digital Evidence Series™ of digital evidence management solutions is a series of software and workstation/server products designed specifically, and only, by L-3 Communications Mobile-Vision, Inc. to support its Flashback2 digital in-car video solution. Digital Evidence PRO modules enable the following exclusive, sole source capabilities:

- ✓ Intelligent Wireless Transfer™ leveraging multi-channel usage for high-speed transfers
- ✓ Automated Intelligent Volume Management™
- ✓ Case Management Features

The AlertVU LPR system brings several unique features to the concept of "using the plate" data. AlertVU modules enable the following exclusive, sole source capabilities:

- ✓ Automatically find all plates "associated" with a plate of interest
- ✓ Unique ability perform iterative searches
- ✓ Automated Intelligent Alerting

We use a Linux based platform that provides greater security than a web-based platform, which reduces the chances of viruses and hacking so security is second to none. Further, only L3 can uniquely integrate AlertVU LPR and Flashback in-car video systems, body-worn cameras and interview rooms into a single back end solution.

Sincerely,

Chris Kadoch  
Vice President & Chief Scientist  
703-669-0330 office / 973-255-0963 cell
