Whereas, in December 2003, the City Council adopted a strategic plan that included a Clean City component which includes a goal to create a “trash-free city”; and,

Whereas, the last element of the plan is to reduce litter from discarded plastic bags; and,

Whereas, the reduction of litter from one-time-use plastic bags will help bring the City one step closer to being a trash-free city; and,

Whereas, the results of a city wide survey reveals that big box retail, grocery stores, and convenience stores, are by far, the biggest generator of plastic checkout bag usage; and,

Whereas, this is not a ban on plastic bags, but an incremental implementation plan towards a cleaner city; and,

Whereas, City Council approved the Plastic Checkout Bag Ordinance on August 19, 2013; and,

Whereas, City Council made motions to amend the Checkout Bag Ordinance on April 21, 2014;
