

September 28, 2015

Mr. Rafael Pena
Webb County
P.O. Box 593
1110 Washington Street, Suite 304
Laredo, TX 78042

Dear Mr. Pena:

I am legal counsel to New World Systems Corp. ("New World"). In that role, I am responsible for the registration and protection of the intellectual property rights for all of New World's proprietary products. New World's Logos suite of public administration software is proprietary to New World having been developed from the ground up by our developers. New World is the sole owner of this suite of public administration software. Among other features, the Logos suite of public administration software interfaces with local government administration agencies to provide valuable information to public administration entities.

To protect its intellectual property, New World holds copyright protection, as granted by the United States Patent and Trademark Office, to the software. As such, New World is the only company with the intellectual property rights to license the Logos suite of public administration software. Webb County, Texas, has owned a license to use the Logos suite of public administration software since 1995. The agreement currently before the County is simply an upgrade to that system. In fact, this addendum is an upgrade that includes Professional Services work only – there is no license fee cost as the fees are for services work only. Please feel free to contact me should you need anything further.

Sincerely,

A handwritten signature in black ink, consisting of a stylized 'B' followed by a long horizontal line.

Bryan K. Proctor
Vice President and Counsel
