

Martha,

As per our phone call I have attached an Excel Spreadsheet breaking down the estimated charges for these additional AEP lights at the Golf Course.

Overall it appears the monthly total bill for all 16 lights will be somewhere around \$550.00 of course this is subject to estimation based upon TDSP rates we found for other customers with these same types of lights. In the attached spreadsheet you will find the estimated costs for each type of light and their location.

Thank you.
