ARTICLE II. INVESTMENT POLICY

Section 2.01 Applicability. This Investment Policy applies to all funds. See Sections 3.02 through 3.04.

Section 2.02 Purpose. The Commissioners Court desires to adopt this Investment Policy in order to comply with the Public Funds Investment Act and to set forth the general policies governing investment of the Funds, the specific investment strategies applicable to each particular Fund, the guidelines for the investment of the Funds, including the types of investments authorized for the Funds, and the investment management policies of the County.

Section 2.03 Investment Policy. The primary concern of the Investment Officer in the investment of the Funds shall be the preservation and safety of the principal. To the extent that the principal is protected, the secondary concern of the Investment Officer in investing the Funds shall be the liquidity of the County's investments. Finally, to the extent that principal is protected and there is liquidity, the Investment Officer shall invest the Funds to yield the market rate of return in accordance with this Investment Policy. The investment of all of the Funds shall be undertaken in accordance with the provisions of the Investment Policy.

Section 2.04 Standard of Care. The Investment Officer shall invest the Funds with the judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of the principal and probable income to be derived.

Section 2.05 Investment Diversification. Investments shall be diversified by security type and issuer. The investments shall also be diversified as to maturity as described in the investment strategies in Article III.

Section 2.06 Investment Yield. To the extent that the principal is protected and there is liquidity of the investments, the Funds shall be invested to yield the market rate of return of comparable maturity, taking into consideration the strength of any insured financial institution selling investments to the County, and complying with all applicable laws, rules, or regulations and any bond resolutions or orders adopted from time to time by the Commissioners Court requiring yield restrictions.

Section 2.07 Investment Maturities. The Funds shall be invested to mature to meet the County's cash requirements, but when cash requirements are met, the Funds shall be invested in accordance with the investment strategies developed for individual Funds, as described in Article III.

ARTICLE III. INVESTMENT STRATEGIES

Section 3.01 Purpose. The purpose of this Article III is to describe the investment objectives for each separate Fund and to provide investment strategies to obtain such objectives in order to ensure that investments in a particular Fund are suitable for and meet the objectives of the Fund.

Section 3.02 General Fund, Special Revenue Funds, Enterprise Funds, Internal Service Funds, and Fiduciary Funds.

A. The same investment objectives apply to each of the following funds: General Fund, Special Revenue Funds, Enterprise Funds, Internal Service Funds and Fiduciary Funds. They are: (1) preserving the safety of the principal; (2) ensuring that money is available as needed to meet the liabilities of each fund, as estimated on its annual operating budget or cash flow; and (3) ensuring that the investments can be readily liquidated in the event there are unexpected additional operating costs.

B. The Investment Officer shall invest money of the General Fund, Special Revenue Funds, Enterprise Funds, Internal Service Funds and Fiduciary Funds in any Authorized Investment; provided that, however, for money needed for the County's monthly operating expenses, as determined by the annual operating budget and cash flow, investments will mature no later than the date the money will be needed to pay such operating expenses. For any operating reserve, no investment will have a maturity greater than 12 months from date of purchase, unless the Commissioners Court authorizes an investment with a longer maturity. At no time will investments of 12 months or more constitute more than 15% of the portfolios of the General Fund, Special Revenue Funds, Enterprise Funds, Internal Service Funds and Fiduciary Funds.

Section 3.03 Capital Projects Funds.

A. The investment objectives of the Capital Projects Funds are: (1) preserving the safety of the principal; (2) ensuring that money is available as needed to meet the construction needs of the County; and (3) to the extent principal is protected and there is adequate liquidity, obtaining the maximum yield on investments as permitted by market conditions.

B. When applicable, the engineer/architect for a project shall submit to the Commissioners Court and the Investment Officers semi-annual written reports stating the anticipated construction needs of the County for the succeeding 12 months. Unless otherwise directed by the Commissioners Court, the written reports shall be submitted two months prior to the end of the County's fiscal year and six months thereafter.

C. The Investment Officers shall invest money of the Capital Projects Funds in any Authorized Investment; provided, however, that for money needed to meet the construction needs of the County, investments will mature no later than the date the money is expected to be needed to pay for the project. For other monies, investments will mature no later than 12 months after the date of purchase, unless the Commissioners Court authorizes an investment with a longer maturity. At no time will investments with maturities of 12 months or more constitute more than 25% of the Capital Projects Funds portfolio.

Section 3.04 Debt Service Funds.

A. The Investment objectives of the Debt Service Funds are: (1) preserving the safety of the principal; (2) ensuring that money is available as necessary to meet the debt service needs of the County; and (3) to the extent that principal is protected and there is adequate liquidity, obtaining the maximum yield as permitted by market conditions.

B. The Investment Officer shall invest money in the Debt Service Funds in any Authorized Investment for such Funds, and in accordance with any covenants made regarding the investment of these Funds as provided in any applicable bond order or resolution; provided, however, that for money needed for the County's next debt service payments, the investments will mature no later than the date the debt service payment is due. Once the immediate succeeding debt service payment is funded, investments will be purchased for the next debt service payment. If the next two debt service payments are fully funded, excess funds can be used for investments with maturity dates not to exceed two years from date of purchase unless otherwise authorized by the Commissioners Court. At no time will investments with maturities of two years or more constitute more than 20% of the Debt Service Fund portfolio.

ARTICLE IV. INVESTMENT GUIDELINES

Section 4.01 Purpose. The purpose of this Article IV is to set forth the types of Authorized Investments in which the Funds may be invested and the manner in which certain investments may be made.

Section 4.02 Authorized Investments. The Investment Officers are authorized to invest the Funds in the following types of investments:

1. Obligations of, or Guaranteed by, the United States Government. The Funds may be invested in obligations of, or guaranteed by, the United States or one of its agencies or instrumentalities. Authorized Investments in obligations of, or guaranteed by, the United States shall not constitute more than 75% of the portfolio. This includes "pass-through" mortgage-backed securities issued by such agencies or instrumentalities, with the exception of mortgage-backed securities listed in Section 4.03.

2. Certificates of Deposit. The Funds may be invested in certificates of deposit issued by a federally insured state or national bank domiciled in Texas or by a savings bank domiciled in Texas. Principal and accrued interest on certificates issued by a savings bank shall not exceed FDIC limits. Principal and accrued interest on certificates issued by a state or national bank domiciled in Texas shall not exceed FDIC limits and /or the collateral pledged as security for the County's investments as set forth in Section 4.04. Authorized Investments in certificates of deposit shall not constitute more than 20% of the portfolio.

3. Investment Pools. The Funds may be invested in investment pools authorized by the Public Funds Investment Act, Section 2256.016 ("eligible investment pools"), if the Commissioners Court by resolution or order authorizes investment in the particular eligible investment pool. An eligible investment pool shall invest the funds it receives from the County in authorized investments permitted by the Public Funds Investment Act. The County by contract may delegate to an eligible investment pool the authority to hold legal

title as custodian of investments purchased with its local funds. Authorized Investments in eligible investments pool may constitute up to 100% of the portfolio.

4. Mutual Funds and Money Market Mutual Funds. The Funds may be invested in mutual funds and AAA-rated money market mutual funds permitted by and in conformance with the Public Funds Investment Act, Section 2256.014, Texas Government Code. Authorized Investments in mutual funds are restricted to 15% of the monthly average fund balance in accordance with the Public Funds Investment Act, Section 2256.014 (c) (1). No more than 80% of the County’s monthly average fund balance may be invested in the aggregate separately or collectively in money market funds and mutual funds. In accordance with the Public Funds Investment Act, Section 2256.014 (c) (3), no bond proceeds, reserves or debt service funds may be placed in mutual funds.

5. Repurchased Agreements. The Funds may be invested in fully collateralized repurchase agreements if the repurchase agreement 1) has a defined termination date; 2) is secured by obligations described by Section 2256.009 (a) (1) of the Public Funds Investment Act; 3) requires the securities being purchased by the County to be pledged to the County, held in the County’s name, and deposited at the time the investment is made with the County or with a third party selected and approved by the County; and 4) is placed through a primary government securities dealer, as defined by the Federal Reserve, or a financial institution doing business in this state. In this section, “repurchase agreement” means a simultaneous agreement to buy, hold for a specified period of time, and sell back at a future date, obligations described by Section 2256.009 (a) (1) of the Public Funds Investment Act, at a market value at the time funds are disbursed of not less than the principal amount of the funds disbursed. Authorized investments in repurchase agreements shall not constitute more than 50% of the portfolio.

Section 4.03 Prohibited Investments. The Funds are strictly prohibited from being invested in any of the following investment instruments:

1. Obligations whose payment represents the coupon payments on the outstanding principal balance of the underlying mortgage-backed security collateral and pays no principal.
2. Obligations whose payment represents the principal stream of cash flow from the underlying mortgage-backed security collateral and bears no interest.
3. Collateralized mortgage obligations that have a stated final maturity date of greater than 10 years.
4. Collateralized mortgage obligations the interest rate of which is determined by an index that adjusts opposite to the changes in a market index.

Section 4.04 Security of Funds/Collateral Policy.

A. All Funds held by an insured state or national bank domiciled in Texas in demand deposits or in certificates of deposit shall be secured by the FDIC and /or by 102% in pledged collateral. All Funds held in certificates of deposit by a savings bank domiciled in Texas must be fully secured by the FDIC. The County recognizes that the FDIC insurance is only available up to a maximum of \$250,000 per public unit.

B. To the extent the Funds held by banks domiciled in Texas are not insured by the FDIC, they shall be secured in the manner provided by law for the security of funds by the Public Funds Collateral Act. There shall be pledged as collateral for such funds, at a rate of 102% collateral, any of the following book entry securities: (1) government securities or obligations issued by the State of Texas, its agencies or political subdivisions, and approved by the Attorney General of Texas, payable from taxes; or (2) obligations of the United States or its agencies and instrumentalities, excluding mortgage backed securities; or (3) any other obligations or securities authorized to be collateral securing the funds of counties under the laws of the State of Texas that are approved by the Commissioners Court. All collateral shall be placed with an independent third party financial institution for safekeeping, with original safekeeping receipts issued to the County.

Section 4.05 Competitive Bidding. At least three bids/offers shall be solicited for each investment. Bids/offers may be solicited orally, in writing, electronically, or in any combination thereof.

Section 4.06 Authorized Financial Dealers and Institutions. A list will be maintained by the Investment Officer of creditworthy financial institutions and dealers authorized to sell investments to the County. All financial institutions and dealers who would like to become qualified to bid/offer on investments other than certificates of deposit and repurchase agreements must submit the following to the investment officer: (1) audited financial statements; (2) proof of National Association of Securities Dealers (NASD) certification, or for financial institutions, a statement from a senior bank official that the institution is registered as a government securities dealer; (3) proof of state registration; and (4) certification required by the Public Funds Investment Act. Compliance with these requirements must be verified by the Investment Officer before any transaction can be completed. An annual review of the financial condition and registration of qualified dealers and institutions will be conducted by the Investment Officer.

Section 4.07 Electronic Wire Transfers. Electronic means may be used to transfer or invest all Funds.

Section 4.08 Delivery vs. Payment. All investments, except certificates of deposit, investment pool funds and mutual funds, will be executed by delivery vs. payment (DVP) to ensure that investments purchased are deposited in the County's financial institution prior to the release of money in payment therefore.

Section 4.09 Loss of Required Rating. An investment under Section 4.02 that requires a minimum rating does not qualify as an Authorized Investment during the period that the investment does not have the minimum rating. The Investment Officer shall take all prudent measures that are consistent with this Investment Policy to liquidate any investment that does not comply with a minimum rating requirement.

ARTICLE V. INVESTMENT MANAGEMENT

Section 5.01 Designation of Investment Officer. The Commissioners Court may designate the County Treasurer, and/or one or more County Treasurer's employees to serve as the Investment Officer for the County. The Investment Officer has the authority to invest the Funds in accordance with this Investment Policy and applicable law.

Section 5.02 Investment Training. The Investment Officer (s) shall attend at least one training session relating to such person's responsibilities under the Public Funds Investment Act within 12 months after taking office or assuming duties and attend an investment training yearly to obtain not less than 10 hours of instruction relating to investment responsibilities from an independent source approved by the Webb County Commissioners Court. Training must include education in investment controls, security risks, strategy risks, market risks, diversification of investment portfolio, and compliance with this chapter.

Section 5.03 Compliance Audit. The County, in conjunction with its annual financial audit, shall perform a compliance audit of management controls on investments and adherence to this Investment Policy.

Section 5.04 Internal Management Reports. Not less than quarterly, the Investment Officer shall prepare and submit to the Commissioners Court a written report of investment transactions for all Funds as required by the Public Funds Investment Act, Section 2256.023 (b), Texas Government Code.

Section 5.05 Conflicts of Interest. In the event that the Investment Officer has a personal business relationship with an entity seeking to sell an investment to the County, the Investment Officer shall file a statement with the Commissioners Court and the Texas Ethics Commission disclosing that personal business relationship prior to purchasing such investment. An Investment Officer who is related within the second degree by affinity or consanguinity, as determined under Chapter 573 of the Texas Government Code, to an individual seeking to

sell an investment to the County shall file a statement with the Commissioners Court and the Texas Ethics Commission disclosing that relationship.

Section 5.06 Disclosure of Investment Policies.

A. The Investment Officer shall provide a copy of this Investment Policy to any person offering to engage in an investment transaction with the County. The qualified representative of the business organization or senior bank official offering to engage in an investment transaction with the County shall execute a written acknowledgment in the form set forth in Appendix “A” hereto, to the effect that the qualified representative or senior bank official has received and reviewed the Investment Policy of the County and acknowledged that the business organization has implemented reasonable procedures and controls in an effort to preclude the investment transactions conducted between the County and the organization that are not authorized by the County’s investment policy. The Investment Officer shall not acquire or otherwise obtain any authorized investment described in the investment policy of the County from a person who has not delivered to the County a written acknowledgement substantially to the effect as set forth in Appendix “A”.

B. The County shall present the Investment Officer with a copy of this approved Investment Policy and the Investment Officer shall execute a written statement in the form set forth in Appendix “B” to the effect that the Investment Officer has reviewed the Investment Policy and has implemented procedures and controls to comply with this Investment Policy.

Economic and Market Commentary: Money funds anchored during Brexit

July 1, 2016

Of all the nautical slang that has stuck around from the days when Britain ruled the high seas, “Keeping an even keel” most describes how money markets reacted to the shock of Brexit. The Leave vote caused tremendous volatility in the equity markets—plenty of investors abandoning ship—but didn’t produce unusual flows or activity for cash managers. Our dollar and sterling products have behaved normally. It is, of course, often the case that volatility drives investors and brokers to take money out of equities and into money funds, but that didn’t happen in any meaningful way after the unexpected outcome of the referendum. In fact, one way of judging the severity of a financial upheaval is the volume of flows into money funds. The greater the amount, the more serious the panic. So it was no surprise to us that equities rallied only a few days after they plunged in the immediate aftermath of the announcement that the U.K will leave the European Union.

Actually, much of the activity since that announcement can be attributed to the run-up to quarter-end, with its typical reduced supply and higher rates. To be sure, overnight rates were elevated on Friday in part because banks were willing to make repo transactions early in the process due to Brexit. Everyone wanted to make sure they were funded rather than shopping around for a few more basis points. For banks, the winning path for liquidity has traditionally been not to hesitate in obtaining repo capital when there is turmoil and uncertainty, and that was the track most banks took.

**Definition of Weighted Average Maturity and Weighted Average Life

WAM is the mean average of the periods of time remaining until the securities held in TexPool (a) are scheduled to be repaid, (b) would be repaid upon a demand by TexPool, or (c) are scheduled to have their interest rate readjusted to reflect current market rates. Securities with adjustable rates payable upon demand are treated as maturing on the earlier of the two dates set forth in (b) and (c) if their scheduled maturity is 397 days or less; and the later of the two dates set forth in (b) and (c) if their scheduled maturity is more than 397 days. The mean is weighted based on the percentage of the amortized cost of the portfolio invested in each period.

WAL is calculated in the same manner as WAM, but is based solely on the periods of time remaining until the securities held in TexPool (a) are scheduled to be repaid or (b) would be repaid upon a demand by TexPool, without reference to when interest rates of securities within TexPool are scheduled to be readjusted.

Re: Webb County Investment Policy

Dear Ms. Perales:

Thank you for your interest in the Texas CLASS program. This letter is to acknowledge that the Texas CLASS staff has received from you (the "Investor") and reviewed the Investment Policy (described in (ii) below) and the form of resolution (the "Resolution") proposed for adoption by your governing body (the "Governing Body") approving the Investment Policy. According to the Resolution, the Investment Policy has been developed in accordance with the requirements of the Public Funds Investment Act, Texas Government Code, Chapter 2256 (the "Act"), and, upon adoption, will authorize you to deposit funds in Texas CLASS for investment by Texas CLASS. You also have represented to the undersigned that:

- i. The Investment Officer named in the Resolution has been, or upon adoption of the Resolution will be, (a) duly designated by official action of the Governing Body to act as its Investment Officer pursuant to the Act, (b) vested with full power and authority under the Act and other applicable law (collectively, the "Authorized Investments Law") to engage in investment activities on behalf of the Investor and to perform all obligations in connection therewith, and (c) duly authorized to execute this letter on behalf of the Investor for the purpose of confirming the representations of the Investor set forth herein;
- ii. Pursuant to the Act, the Governing Body of the Investor has, or will upon approval of the Resolution have, duly adopted a written investment policy, including an investment strategy (as the same may be amended, the "Investment Policy"), and the Investment Officer (a) has furnished a true and correct copy of the Investment Policy to us and (b) will promptly notify us of any rescission of, or amendment to, the Investment Policy, provided that we shall be entitled to rely upon the most recent version of the Investment Policy furnished by the Investment Officer; and
- iii. The Investor has implemented reasonable procedures and controls in an effort to preclude imprudent investment activities arising out of investment transactions with Texas CLASS, and prior to investing assets through the Texas CLASS program, the Investment Officer will determine that the contemplated investment is authorized under the Authorized Investments Law and is consistent with the Investment Policy.

Texas CLASS acknowledges that it has reviewed the investment policy of the above-named entity and has implemented reasonable procedures and controls in an effort to preclude investment transactions involving funds invested on behalf of Texas CLASS participants that

are not authorized by the entity's investment policy, except to the extent that this authorization is dependent on an analysis of the makeup of the entity's entire portfolio or requires an interpretation of subjective investment standards. The Texas CLASS Program allows the purchase of investments that are authorized by the Act. Texas CLASS is committed to the high standards and level of service that participants expect in the investments of their funds.

The foregoing representations of the Investor are true and correct as of the date hereof.

TIPS TO FINE-TUNE YOUR INVESTMENT POLICY

Is your local government investment policy a comprehensive, well developed investment policy? Does it include, among other things, clearly stated investment objectives, allowable investment instruments, and compliance with relevant statutes? Is it time to fine-tune it, to remove vague, contradictory requirements that may artificially constrain your investment program? Does your local government have an investment policy or an investment procedure? Remember, a policy sets out what you are able to do, whereas a procedure spells out how you should do it.

The chart below includes tips for developing a sound, comprehensive investment policy. The column on the left outlines what should be in the policy and the column on the right describes why this information is important.

TIP	REASON
Clearly describe what funds are covered by the policy and what funds are covered by a separate policy.	The policy should be clear on what funds are covered by those particular policy guidelines as some funds, such as bond proceeds or pension funds, may have different investment objectives or different investment horizons and would be better managed under a separate policy.
Write a clear and concise statement of objectives.	Simply stating investment objectives as safety, liquidity and yield will not help the government protect its funds. Statements describing how the government will achieve these goals provide more guidance. GFOA's Sample Investment Policy includes explicit statements of objectives.
Include a Standards of Care section addressing the delegation of authority, prudence and ethics and conflicts of interest.	The delegation of authority states who is responsible for the investment program and cites the derivation of authority. A reference to the prudent investor standard by which investment decisions are made should be included and ethics and conflicts of interest should reference any existing formal codes and internal policies.
Know your investment statutes and determine if all of the allowable investment instruments are appropriate for your investment program.	Some public entities copy the state statute into their investment policies, thus allowing the use of investment instruments that the staff may not fully understand or that may be inappropriate for the government's investment program. Many public entities may opt to have an investment program that is more restrictive than that allowed by state statute. In addition, the state statute may not provide the level of detail regarding maturity structure, security specific asset allocation and reporting requirements desired.
Use explicit language to describe allowable investment instruments; include clear definitions of investment types, credit criteria, maturity restrictions and diversification requirements.	Clear, explicit language describing allowable investment instruments will leave little room for interpretation and will help protect the government from imprudent investment decisions. Also, it is best to avoid having a list of permitted investments followed by a list of prohibited investments as there may be conflicting language. It should be understood if the security is not listed then it is prohibited.
	Ensure diversification by assigning maximum percentages of the portfolio to security types and issuers. In addition, some policies artificially limit maturities. Maturity restrictions should make sense for the entity's cash flows and investment horizon.
Avoid arbitrary percentages when discussing diversification requirements; instead use target guidelines such as "no more than five percent of the portfolio can be invested in the securities of a single issuer" or "no more than 20 percent of the portfolio may be invested beyond one year."	Many investment policies include specific diversification guidelines such as, "The portfolio must be invested in 50 percent Treasuries, 30 percent certificates of deposit, 10 percent commercial paper, and 10 percent local government investment pool." Arbitrary percentages can restrict the entity from implementing an effective, dynamic investment strategy. Asset allocation limits should be used as a guide and allow for flexibility as market conditions and investment opportunities change. The purpose of diversification is to reduce risk in the portfolio and can be accomplished by investing in a variety of maturities and avoiding over-concentration in a specific business sector (with the exception of U.S. Treasury securities).

The**ECONOMY**

The British are Leaving!

The recent decision by 52.9 percent of Britons to leave the European Union was the driving force behind the market gyrations over the past few weeks. The volatility centers more on speculation than certain economic impacts, as the entire process for the United Kingdom to sever ties with the Union will take at a minimum two years to play out. The sentiment behind the "leave" campaign focused on immigration issues and general displeasure with the current political environment. The market reaction was one of entering "safe haven" trades in US Treasury securities, causing yields to grind lower.

The Federal Open Market Committee met on June 15. The Committee left rates unchanged, as the official release stated; "the pace of improvement in the labor market has slowed while growth in economic activity appears to have picked up." The current environment led the Fed to remain on hold and readjust the dot plot for future rate estimates. The forecast now points to a lower terminal Fed Funds rate and a longer time horizon to achieve that target.

Current Fed fund futures rates indicate close to zero chance of a Federal Funds rate hike for 2016 and most of 2017. The mantra seems to have morphed from "Don't fight the Fed" to "Don't fight the Market."

The payroll report revealed that hiring picked up in June, adding 287,000 jobs. The three-month average moved to 147,000 jobs created, slower than the 200,000 average for the first quarter of 2016. The unemployment rate moved higher to 4.9% from 4.7% as the participation rate increased. This will stir up the debate around the next Fed Funds rate hike.

Portfolio Strategy

The Fed has been in a holding pattern for the past four meetings after raising rates late last year. The potential for further rate hikes in conjunction with October's pending money-market reform may provide market opportunities later this year. Texas CLASS is rated AAAM by Standard & Poor's.

(2) primarily emphasize safety of principal and liquidity;

(3) address investment diversification, yield, and maturity and the quality and capability of investment management; and

(4) include:

(A) a list of the types of authorized investments in which the investing entity's funds may be invested;

(B) the maximum allowable stated maturity of any individual investment owned by the entity;

(f) Each investing entity shall designate, by rule, order, ordinance, or resolution, as appropriate, one or more officers or employees of the state agency, local government, or investment pool as investment officer to be responsible for the investment of its funds consistent with the investment policy adopted by the entity. If the governing body of an investing entity has contracted with another investing entity to invest its funds, the investment officer of the other investing entity is considered to be the investment officer of the first investing entity for purposes of this chapter. Authority granted to a person to invest an entity's funds is effective until rescinded by the investing entity, until the expiration of the officer's term or the termination of the person's employment by the investing entity, or if an investment management firm, until the expiration of the contract with the investing entity. In the administration of the duties of an investment officer, the person designated as investment officer shall exercise the judgment and care, under prevailing circumstances, that a prudent person would exercise in the management of the person's own affairs, but the governing body of the investing entity retains ultimate responsibility as fiduciaries of the assets of the entity. Unless authorized by law, a person may not deposit, withdraw, transfer, or manage in any other manner the funds of the investing entity.

(g) Subsection (f) does not apply to a state agency, local government, or investment pool for which an officer of the entity is assigned by law the function of investing its funds.

Text of subsec. (h) as amended by Acts 1997, 75th Leg., ch. 685, Sec. 1

(h) An officer or employee of a commission created under Chapter 391, Local Government Code, is ineligible to be an investment officer for the commission under Subsection (f) if the officer or employee is an investment officer designated under Subsection (f) for another local government.

Text of subsec. (h) as amended by Acts 1997, 75th Leg., ch. 1421, Sec. 3

(h) An officer or employee of a commission created under Chapter 391, Local Government Code, is ineligible to be designated as an investment officer under Subsection (f) for any investing entity other than for that commission.

(i) An investment officer of an entity who has a personal business relationship with a business organization offering to engage in an investment transaction with the entity shall file a statement disclosing that personal business interest. An investment officer who is related within the second degree by affinity or consanguinity, as determined under Chapter 573, to an individual seeking to sell an investment to the investment officer's entity shall file a statement disclosing that relationship. A statement required under this subsection must be filed with the Texas Ethics Commission and the governing body of the entity. For purposes of this subsection, an investment officer has a personal business relationship with a business organization if:

(1) the investment officer owns 10 percent or more of the voting stock or shares of the business organization or owns \$5,000 or more of the fair market value of the business organization;

(2) funds received by the investment officer from the business organization exceed 10 percent of the investment officer's gross income for the previous year; or

(3) the investment officer has acquired from the business organization during the previous year investments with a book value of \$2,500 or more for the personal account of the investment officer.

(j) The governing body of an investing entity may specify in its investment policy that any investment authorized by this chapter is not suitable.

(k) A written copy of the investment policy shall be presented to any person offering to engage in an investment transaction with an investing entity or to an investment management firm under contract with an investing entity to invest or manage the entity's investment portfolio. For purposes of this subsection, a business organization includes investment pools and an investment management firm under contract with an investing entity to invest or manage the entity's investment portfolio. Nothing in this subsection relieves the investing entity of the responsibility for monitoring the investments made by the investing entity to determine that they are in compliance with the investment policy. The qualified representative of the business organization offering to engage in an investment transaction with an investing entity shall execute a written instrument in a form acceptable to the investing entity and the business organization substantially to the effect that the business organization has:

(1) received and reviewed the investment policy of the entity; and

(2) acknowledged that the business organization has implemented reasonable procedures and controls in an effort to preclude investment transactions conducted between the entity and the organization that are not authorized by the entity's investment policy, except to the extent that this authorization is dependent on an analysis of the makeup of the entity's entire portfolio or requires an interpretation of subjective investment standards.

(l) The investment officer of an entity may not acquire or otherwise obtain any authorized investment described in the investment policy of the investing entity from a person who has not delivered to the entity the instrument required by Subsection (k).

(m) An investing entity other than a state agency, in conjunction with its annual financial audit, shall perform a compliance audit of management controls on investments and adherence to the entity's established investment policies.

(n) Except as provided by Subsection (o), at least once every two years a state agency shall arrange for a compliance audit of management controls on investments and adherence to the agency's established investment policies. The compliance audit shall be performed by the agency's internal auditor or by a private auditor employed in the manner provided by Section 321.020. Not later than January 1 of each even-numbered year a state agency shall report the results of the most recent audit performed under this subsection to the state auditor. Subject to a risk assessment and to the legislative audit committee's approval of including a review by the state auditor in the audit plan under Section 321.013, the state auditor may review information provided under this section. If review by the state auditor is approved by the legislative audit committee, the state auditor may, based on its review, require a state agency to also report to the state auditor other information the state auditor determines necessary to assess compliance with laws and policies applicable to state agency investments. A report under this subsection shall be prepared in a manner the state auditor prescribes.

(o) The audit requirements of Subsection (n) do not apply to assets of a state agency that are invested by the comptroller under Section 404.024.

(2) the governing body of the institution, in exercising its fiduciary responsibility, determines that the institution is adequately protected by using a trust agreement, special deposit, surety bond, substantial deposit insurance, or other method an exempt institution commonly uses to protect itself from liability.

DEPOSITS OF CERTAIN PUBLIC FUNDS

Sec. 2257.101. DEFINITION. In this subchapter, "participating institution" means a financial institution that holds one or more deposits of public funds and that participates in the pooled collateral program under this subchapter.

Added by Acts 2009, 81st Leg., R.S., Ch. 486 (S.B. 638), Sec. 1, eff. September 1, 2009.

Sec. 2257.102. POOLED COLLATERAL PROGRAM. (a) As an alternative to collateralization under Subchapter B, the comptroller by rule shall establish a program for centralized pooled collateralization of deposits of public funds and for monitoring collateral maintained by participating institutions. The rules must provide that deposits of public funds of a county are not eligible for collateralization under the program. The comptroller shall provide for a separate collateral pool for any single participating institution's deposits of public funds.

(b) Under the pooled collateral program, the collateral of a participating institution pledged for a public deposit may not be combined with, cross-collateralized with, aggregated with, or pledged to another participating institution's collateral pools for pledging purposes.

(c) A participating institution may pledge its pooled securities to more than one participating depositor under contract with that participating institution.

(d) The pooled collateral program must provide for:

(1) participation in the program by a participating institution and each affected public entity to be voluntary;

(2) uniform procedures for processing all collateral transactions that are subject to an approved security agreement described by Section 2257.103; and

(3) the pledging of a participating institution's collateral securities using a single custodial account instead of an account for each depositor of public funds.

- (1) the institution has entered into a binding collateral security agreement with a public agency for a deposit of public funds and the agreement permits the institution's participation in the program;
- (2) the comptroller has approved the institution's participation in the program; and
- (3) the comptroller has approved or provided the collateral security agreement form used.

Added by Acts 2009, 81st Leg., R.S., Ch. 486 (S.B. 638), Sec. 1, eff. September 1, 2009.

Sec. 2257.104. COLLATERAL REQUIRED; CUSTODIAN TRUSTEE. (a) Each participating institution shall secure its deposits of public funds with eligible securities the total value of which equals at least 102 percent of the amount of the deposits of public funds covered by a security agreement described by Section 2257.103 and deposited with the participating institution, reduced to the extent that the United States or an instrumentality of the United States insures the deposits. For purposes of determining whether collateral is sufficient to secure a deposit of public funds, Section 2257.022(b) does not apply to a deposit of public funds held by the participating institution and collateralized under this subchapter.

(b) A participating institution shall provide for the collateral securities to be held by a custodian trustee, on behalf of the participating institution, in trust for the benefit of the pooled collateral program. A custodian trustee must qualify as a custodian under Section 2257.041.

(c) The comptroller by rule shall regulate a custodian trustee under the pooled collateral program in the manner provided by Subchapter C to the extent practicable. The rules must ensure that a custodian trustee depository does not own, is not owned by, and is independent of the financial institution or institutions for which it holds the securities in trust, except that the rules must allow the following to be a custodian trustee:

- (1) a federal reserve bank;
- (2) a banker's bank, as defined by Section 34.105, Finance Code; and
- (3) a federal home loan bank.

Added by Acts 2009, 81st Leg., R.S., Ch. 486 (S.B. 638), Sec. 1, eff. September 1, 2009.

- (1) a daily report of the aggregate ledger balance of deposits of public agencies participating in the pooled collateral program that are held by the institution, with each public entity's funds held itemized;
- (2) a weekly summary report of the total market value of securities held by a custodian trustee on behalf of the participating institution;
- (3) a monthly report listing the collateral securities held by a custodian trustee on behalf of the participating institution, together with the value of the securities; and
- (4) as applicable, a participating institution's annual report that includes the participating institution's financial statements.

(b) The comptroller shall provide the participating institution an acknowledgment of each report received.

(c) The comptroller shall provide a daily report of the market value of the securities held in each pool.

(d) The comptroller shall post each report on the comptroller's Internet website.

Added by Acts 2009, 81st Leg., R.S., Ch. 486 (S.B. 638), Sec. 1, eff. September 1, 2009.

Sec. 2257.106. ANNUAL ASSESSMENT. (a) Once each state fiscal year, the comptroller shall impose against each participating institution an assessment in an amount sufficient to pay the costs of administering this subchapter. The amount of an assessment must be based on factors that include the number of public entity accounts a participating institution maintains, the number of transactions a participating institution conducts, and the aggregate average weekly deposit amounts during that state fiscal year of each participating institution's deposits of public funds collateralized under this subchapter. The comptroller by rule shall establish the formula for determining the amount of the assessments imposed under this subsection.

(b) The comptroller shall provide to each participating institution a notice of the amount of the assessment against the institution.

Sec. 2257.108. NOTICE OF COLLATERAL VIOLATION; ADMINISTRATIVE PENALTY. (a) The comptroller may issue a notice to a participating institution that the institution appears to be in violation of collateral requirements under Section 2257.104 and rules of the comptroller.

(b) The comptroller may impose an administrative penalty against a participating institution that does not maintain collateral in an amount and in the manner required by Section 2257.104 and rules of the comptroller if the participating institution has not remedied the violation before the third business day after the date a notice is issued under Subsection (a).

Sec. 2257.110. PENALTY AMOUNT; PENALTIES NOT EXCLUSIVE. (a) The comptroller by rule shall adopt a formula for determining the amount of a penalty under this subchapter. For each violation and for each day of a continuing violation, a penalty must be at least \$100 per day and not more than \$1,000 per day. The penalty must be based on factors that include:

(1) the aggregate average weekly deposit amounts during the state fiscal year of the institution's deposits of public funds;

(2) the number of violations by the institution during the state fiscal year;

(3) the number of days of a continuing violation; and

(4) the average asset base of the institution as reported on the institution's year-end report of condition.

(b) The penalties provided by Sections 2257.107-2257.109 are in addition to those provided by Subchapter D or other law.

Enforcement of a penalty imposed under Section 2257.107, 2257.108, or 2257.109 may be stayed during the time the order is under judicial review if the participating institution pays the penalty to the clerk of the court or files a supersedeas bond with the court in the amount of the penalty. A participating institution that cannot afford to pay the penalty or file the bond may stay the enforcement by filing an affidavit in the manner required by the Texas Rules of Civil Procedure for a party who cannot afford to file security for costs, subject to the right of the comptroller to contest the affidavit as provided by those rules.

Added by Acts 2009, 81st Leg., R.S., Ch. 486 (S.B. 638), Sec. 1, eff. September 1, 2009.
