## AGREEMENT

### 1. Period of the Agreement

This agreement becomes effective when signed by the last party whose signing makes the agreement fully executed. This agreement shall remain in effect until the Project is completed or unless terminated as provided below.

### 2. Scope of Work

The Local Government will provide Preliminary Engineering including Schematic and Environmental for Hachar Road Extension from 0.1 Mile East of Beltway Parkway to IH-35 West Frontage Road as shown on Attachment "B".

### 3. Local Project Sources and Uses of Funds

- A. The total estimated cost of the Project is shown in the Project Budget – Attachment "C", which is attached to and made a part of this agreement. The expected cash contributions from the Federal or State government, the Local Government, or other parties are shown in Attachment "C". The State will pay for only those project costs that have been approved by the Texas Transportation Commission. The State and the Federal Government will not reimburse the Local Government for any work performed before the federal spending authority is formally obligated to the Project by the Federal Highway Administration. After federal funds have been obligated, the State will send to the Local Government a copy of the formal documentation showing the obligation of funds including federal award information. The Local Government is responsible for 100% of the cost of any work performed under its direction or control before the federal spending authority is formally obligated.
- B. If the Local Government will perform any work under this contract for which reimbursement will be provided by or through the State, the Local Government must complete training before federal spending authority is obligated. Training is complete when at least one individual who is working actively and directly on the Project successfully completes and receives a certificate for the course entitled *Local Government Project Procedures and Qualification for the Texas Department of Transportation*. The Local Government shall provide the certificate of qualification to the State. The individual who receives the training certificate may be an employee of the Local Government or an employee of a firm that has been contracted by the Local Government to perform oversight of the Project. The State in its discretion may deny reimbursement if the Local Government has not designated a qualified individual to oversee the Project.
- C. The Project cost estimate shows how necessary resources for completing the Project will be provided by major cost categories. These categories may include but are not limited to: (1) costs of real property; (2) costs of utility work; (3) costs of environmental assessment and remediation; (4) cost of preliminary engineering and design; (5) cost of construction and construction management; and (6) any other local project costs.
- D. The State will be responsible for securing the Federal and State share of the funding required for the development and construction of the local Project. If the Local Government

is due funds for expenses incurred, these funds will be reimbursed to the Local Government on a cost basis.

- E.** The Local Government will be responsible for all non-federal or non-state participation costs associated with the Project, otherwise provided for in this agreement or approved otherwise in an amendment to this agreement. Where a Special Approval has been signed by the State, the Local Government shall only in that instance be responsible for overruns in excess of the amount to be paid by the Local Government.
- F.** Prior to the performance of any engineering review work by the State, the Local Government will pay to the State the amount specified in Attachment C. At a minimum, this amount shall equal the Local Government's funding share for the estimated cost of preliminary engineering for the Project. At least sixty (60) days prior to the date set for receipt of the construction bids, the Local Government shall remit its remaining financial share for the State's estimated construction oversight and construction cost.
- G.** Whenever funds are paid by the Local Government to the State under this agreement, the Local Government shall remit a check or warrant made payable to the "Texas Department of Transportation." The check or warrant shall be deposited by the State and managed by the State. The funds may only be applied by the State to the Project.
- H.** Upon completion of the Project, the State will perform an audit of the Project costs. Any funds due by the Local Government, the State, or the Federal government will be promptly paid by the owing party. If after final Project accounting any excess funds remain, those funds may be applied by the State to the Local Government's contractual obligations to the State under another advance funding agreement with approval by appropriate personnel of the Local Government.
- I.** The State will not pay interest on any funds provided by the Local Government.
- J.** If a waiver has been granted, the State will not charge the Local Government for the indirect costs the State incurs on the local Project, unless this agreement is terminated at the request of the Local Government prior to completion of the Project.
- K.** If the Project has been approved for a specified percentage or a "periodic payment" non-standard funding or payment arrangement under 43 TAC §15.52, the budget in Attachment C will clearly state the specified percentage or the periodic payment schedule.
- L.** If the Local government is an Economically Disadvantaged County (EDC) and if the State has approved adjustments to the standard financing arrangement, this agreement reflects those adjustments.
- M.** When a Special Approval has been signed by the State so that the Local Government bears the responsibility for paying cost overruns, the Local Government shall make payment to the State within thirty (30) days from the receipt of the State's written notification of those amounts.
- N.** The state auditor may conduct an audit or investigation of any entity receiving funds from the State directly under this contract or indirectly through a subcontract under this contract. Acceptance of funds directly under this contract or indirectly through a subcontract under this contract acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. An entity that is the subject of an audit or investigation must provide the state

- P. The Local Government is authorized to submit requests for reimbursement by submitting the original of an itemized invoice in a form and containing all items required by the State no more frequently than monthly, and no later than ninety (90) days after costs are incurred. If the Local Government submits invoices more than ninety (90) days after the costs are incurred, and if federal funding is reduced as a result, the State shall have no responsibility to reimburse the Local Government for those costs.
- Q. The State will not execute the contract for the construction of the Project until the required funding has been made available by the Local Government in accordance with this agreement.

- D. The Project is inactive for thirty-six (36) months or longer and no expenditures have been charged against federal funds, in which case the State may in its discretion terminate this agreement.

#### **5. Amendments**

Amendments to this agreement due to changes in the character of the work, terms of the agreement, or responsibilities of the parties relating to the Project may be enacted through a mutually agreed upon, written amendment.
