Toshiba Technology Never Looked Better

The Toshiba e-STUDIO3505AC can increase the efficiency of your workgroups, improve the professionalism of your presentations, and streamline the workflow of your organization. And, that's just for starters.

A 300-sheet high-speed, high-capacity Dual-Scan Document Feeder (DSDF) produces up to 120 IPM simplex and 240 IPM duplex. A conventional RADF is available for less scan-intensive businesses.

Toshiba has developed a customizable MFP to make your job easier. A new 9" tablet-style touch screen works intuitively, helping you find instructions, functions, and commands with the swipe of the finger. Toshiba's internally developed Multi-Station Print Enabler allows users to send print jobs from their desktop and retrieve them at any convenient MFP by simply swiping their badge and authenticating at that device.
