4. Public Comment - This section provides the public the opportunity to address the Commissioners Court on any items on the Agenda. Each public member, individually or in a group, will be allowed a total of Three (3) minutes within which to make any/all public comments.

## **COURT TO DISCUSS AND ACT ON THE FOLLOWING:**

**CONSENT AGENDA:** At most meetings, the Commissioners Court establishes a Consent Agenda. It consists of those Agenda Items which are routine or non-controversial, and which neither a member of the Commissioners court has asked to be pulled for discussion. Once the Commissioners Court has established the Consent Agenda, Agenda Items included on it will be voted upon in one vote, and will not be discussed separately unless requested by the County Judge or Commissioners.

The consent agenda has been created in order to give constituents the opportunity to view any and all pertinent backup information with reference to any item in the agenda. The objective of the consent agenda is for all Webb County constituents to be familiar with everyday county business and to demonstrate the transparency and fairness of this Commissioners Court.

The following Agenda Items are of a routine nature, and the Commissioners Court has received supporting materials for consideration. All of these Agenda Items will be passed with one vote without being discussed separately, unless a member of the Commissioners Court or the public requests that a particular Agenda Item be discussed. If so, that Agenda Item will be pulled from the Consent Agenda and discussed as part of the regular Agenda at the appropriate time. One vote will approve the remaining items on the Consent Agenda.

**Issue:** Existing trailer mounted hydro-jetting equipment was purchased in 1998 and has been repaired multiple times inclusive of motor replacement, pump replacement, and tank replacement in the 20 years of service life of this equipment. This small trailer mounted jetting equipment is primarily used in small diameter lines and lines associated in

easements within private property owners. Due to the use of our Vacuum Jetter Truck and our sewer collection line cleaning program, the majority of customer calls are due to small service lines where the large truck cannot enter. This unit is being requested to improve the reliability of service to our customers. Existing unit will be placed out of service due to calculated cost for equipment replacement is at \$21,000 not inclusive of labor.

**Issue:** Term has expired for current Commissioners James Kuykendall, Rey Ayala, and Oscar Maldonado.

**Solution:** James Kuykendall and Rey Ayala are willing to serve another term, if the court so approves. Since only two commissioners are willing to serve another term, there is no quorum. The Commissioners Court may recommend names of individuals that might be interested in serving on the Civil Service Commission.

**Result:** The re-appointment of the two current commissioners plus the recommendation of the court will insure smooth and efficiently run Commission, and will provide good continuity for such an important function.

## Planning

26. Discussion and possible action to authorize the Purchasing Agent to solicit proposals for an annual contract with a public relations agency or marketing consultant to perform public communications and educational outreach via multi-media platforms to address a variety of issues including, but not limited to, public health and safety, emergency operations, educational outreach intended to prevent or otherwise safeguard public health and safety, matters relating to regulatory or legislative changes impacting county residents, and local efforts to prevent disease, reduce waste, address public nuisances, protect the environment and water resources, or other issues of public concern. **[Accounts #010-2204-6022 (Professional Services) and #010-2204-7054 (Environmental Health & Vector Control)]**

**Issue:** As set-out in Webb County's Emergency Operations Plan and consistent with best practices of the National Incident Management System (NIMS), adequate public communications and educational outreach in preparation for or in response to emergency operations and public health and safety issues is critical to successful prevention programs and the management of events and outbreaks. Ongoing and recent threats to public

health such as the Zika virus have elevated local needs to increase educational efforts to strengthen prevention, support source reduction and respond to transmission and outbreaks. Unfortunately, existing resources are limited to perform much needed emergency communications and educational outreach.

**Solution/Result:** An annual contract with a proven public relations agency or marketing consultant will be beneficial not only in the development of outreach campaigns for local prevention efforts but can also play a vital role in consolidating and disseminating public communications in the event of an emergency operation or response. By utilizing the annual contract procurement approach, such an agency/firm could also be utilized by several county offices to perform and support a variety of public communication efforts as issues or needs arise utilizing multi-media platforms and response teams.

Code; with further action to authorize that a formal subpoena with duces tecum, if necessary, be issued by the commissioners court to compel his presence at all future meetings; and any other matters incident thereto.

**Issue:** For more than a year, the Auditor has been absent from all commissioners court meetings. A deputy assistant auditor has appeared to provide the court with financial information and reports. The assistant auditor, however, is unable to answer all questions or make final

determinations as requested by the commissioners court. This results in unreasonable and unnecessary delays in the conducting of county business. The auditors intentional absence from court meetings have caused many agenda items to be tabled and rescheduled. Questions regarding financial reports cannot be verified by the absent auditor which causes misinformation to be circulated and confuses court members, department heads and elected officials.

**Solution:** The law requires the auditor to be present to report all financial conditions of the county at each and every meeting. Obtain court approval for the requirement of the county auditor's presence for all future commissioners court meetings.

**Result:** All information is provided at the time needed with the presence of the auditor. Avoid delays and misinformation in the conducting of county business.
