COURT TO DISCUSS AND ACT ON THE FOLLOWING:

CONSENT AGENDA: At most meetings, the Commissioners Court establishes a Consent Agenda. It consists of those Agenda Items which are routine or non-controversial, and which neither a member of the Commissioners court has asked to be pulled for discussion. Once the Commissioners Court has established the Consent Agenda, Agenda Items included on it will be voted upon in one vote, and will not be discussed separately unless requested by the County Judge or Commissioners.

The consent agenda has been created in order to give constituents the opportunity to view any and all pertinent backup information with reference to any item in the agenda. The objective of the consent agenda is for all Webb County constituents to be familiar with everyday county business and to demonstrate the transparency and fairness of this Commissioners Court.

The following Agenda Items are of a routine nature, and the Commissioners Court has received supporting materials for consideration. All of these Agenda Items will be passed with one vote without being discussed separately, unless a member of the Commissioners Court or the public requests that a particular Agenda Item be discussed. If so, that Agenda Item will be pulled from the Consent Agenda and discussed as part of the regular Agenda at the appropriate time. One vote will approve the remaining items on the Consent Agenda.

28. Discussion and possible action to ratify and approve a Contingency Fund Expense in the amount of \$19,405.00 from Schneider Electric, for repairs at the Webb County Jail, using funds encumbered as per contract and Purchase Order 2018-00000303 and; authorizing the County Judge to execute all relevant documents and any other matters incident thereto. [Account #3865-7420-001-474501-045 (Construction in Progress-Chiller Water Plant-Contingency Fund)]

Issue: Pumps at the Webb County Jail were in bad shape and supply and return water lines had been altered, which did not help the cooling system work efficiently.

Solution: Clean chilled water strainers and condenser coils on chillers #2 and #3. Replace control and display board on chiller #3. Install by-pass line and valve in pump piping in the 2nd floor's mechanical room, and replace damaged pump piping insulation in the 2nd and 3rd floor mechanical rooms. Result: An efficient cooling system at the Webb County Jail.

[Account #3865-7420-001-474501-045 (Construction in Progress-Chiller Water Plant-Contingency Fund)]

Issue: Main Switchboard needs to be replaced and the arch flash coordination study is needed so that the proper settings and labels are applied once the new board is installed. **Solution:** Price of \$166,500.00 will cover \$19,500.00 for the coordination and arc flash study and \$147,000.00 for the replacement of the existing main switchboard, as per attached quote. Issue: We don't have a budget for labor for neither the driving range nor cart barn. Since we have seen the increase in both revenue stream it should justify the labor increase. At first the few carts we had available didn't have the need to move based on demand nor was the sale or retrieval of golf ball necessary. Our maintenance crew and entire staff have been utilized to keep up with the demand. Driving range labor included picking up golf balls, washing, and restocking for pros sales all day. Extra labor has also been utilized for watering the course and needed irrigation repairs. Our driving range revenue has shown the increase to conform this statement. The old cart fleet requires extra labor from maintenance just to keep what we had functioning. We had to make necessary adjustments in staff to accommodate to the need to recover or replace carts from stranded customers on the course. The 4 to 5 extra months to receive our new cart fleet could have eliminated the extra labor. Need new equipment that is compatible to the new POS Tyler system from the County which includes 2 compact printers and 2 registers. Hole# 4, 12, and 14 greens have closed for the past 12-15 months due to the greens being unplayable.

Solution: Line item Transfer to cover the labor until the fiscal year ends Line Item Transfer to purchase the equipment that is needed

Line item Transfer to meet the quote from King Ranch Turf for delivery and installment

Result: Reimbursement Labor will have money in the account for our employees to compensate all the repairs that has come to the golf course. Tyler system will be up and running with anew register and a receipt printer that isn't the size of a full page. Between 3-6 weeks the greens reconstruction should be complete and ready for play. This will now give Casa Blanca the opportunity to host High School golf tournaments as well as serve as the prime location for the fund raising efforts to non-profit organizations

that are looking for an event center with a great location. We have hosted many of the local golf events for high schools and the local golf community and will now be available for them again.
