BE THE INSPIRATION

May 22, 2019

Webb County
Mr. Joe Lopez
Purchasing Agent
1110 Washington St.
First Floor
Laredo, Texas 78040

Dear Mr. Lopez:

Thank you for taking the time to talk to us about our proposed project. As discussed, the Laredo Gateway Rotary Club recently gifted the Larga Vista Community Center seven new computers for use in the Computer Lab at the Center, replacing the old computers. Our request is simply that the County consider gifting our Club the old computers so that we can use them in an International Project we are hoping to complete with our friends in Nuevo Laredo, Mexico.

One of Rotary's Areas of Service is Education – we would like to donate these "previously used" computers to the Instituto de Ciencia y Tecnologia in Nuevo Laredo. During this school year we have observed that they are in dire need of instructional resources that can help to enhance the quality and impact of the instruction the teachers are providing to their students. These computers would be an invaluable resource! The school serves middle school (7th-9th grade) and high school (10th-12th grade) students. Approximately 200 in total attend the school.

The Laredo Gateway Rotary Club has built a fourteen year history of service with the Larga Vista Community Center and we plan to continue our very generous service to this community through our annual events there! Please accept this letter as our formal request and let us know if there is anything else you need to finalize this request.

Sincerely,

A handwritten signature in cursive script that reads "Lucy Quintanilla".

Lucy Quintanilla
President, Laredo Gateway Rotary Club
