Subject: Single Source Letter

To Whom It May Concern:

Jenoptik Light & Safety is the sole source provider of the VECTOR LPR Trailer, TraffiCatch and TraffiData. Jenoptik manufactures the VECTOR camera, TraffiCatch as well as develops the TraffiData software with no reliance on third party vendors.

The VECTOR camera is unique for the following reasons:

- All-in-one unit with no other required equipment to install
- It can monitor multiple lanes, bi-directional with video recording capability
- Proprietary Artificial Intelligence Engine for:
 - Superior read rates
 - Vehicle classification
 - Vehicle occupancy detection

The VECTOR camera is covered by the following patent, trademarks and design-rights:

- ©QUESTEL - 2019/02/26
- Trademarks: JENOPTIK®, Traffi®, Vysionics®, Figurative Trademark 015456379
- Patent: US20180082580

The TraffiCatch is unique for the following reasons:

- Ability to detect in-vehicle wireless signals
- Merge such signals with the vehicle license plate via our own TraffiData.

The TraffiData is unique for the following reasons:

- Only software with the following analytics capability:
 - Event Analysis Report
 - Intercept Report
 - Clone Plate Report
 - Convoy Report

MORE LIGHT

Jenoptik is the only company that can tie in the above 3 technologies into one software system designed and developed in house.

Should you need additional information, please contact me at the above number ext. 1223 or by email: hassan.dabaja@jenoptik-inc.com

Best regards,
