Diversion Programs (CSEP): Programs to divert individuals experiencing commercial sexual exploitation away from the criminal justice system. This includes pre-arrest and pre-trial diversion programs for individuals engaged in prostitution (selling).

Targeted Investigation and Prosecution (CSEP): The investigation and/or prosecution of crimes related to the commercial sexual exploitation of people, including the use of dedicated personnel such as investigators, analysts, task force coordinators, or prosecutors.

Program Evaluation and Assessment: Evaluation and/or assessment of the effectiveness of targeted criminal justice responses.

Innovative Programs (CSEP): Innovative programs that address commercial sexual exploitation but do not fit neatly into the other eligible activities. This may include a combination of approaches such as addressing risk and protective factors for victimization or perpetration; prevention education; civil enforcement; and other efforts to disrupt the market for commercial sex.

Program Specific Requirements

Please closely review the following requirements for projects under this funding announcement as some instructions are not contained on eGrants. Failure to provide requested information will be considered in the review process and may result in an application being deemed ineligible for funding. Unless otherwise noted, the following requirements may be addressed in whatever section of the Project Narrative that the applicant deems most appropriate.

Requirements for specific purpose areas:

Diversion Programs (CSEP): Applicants seeking to implement diversion programs must provide a detailed overview of the proposed diversion structure, including: program goals; target population; method of entry/point of contact; type of intervention/service; completion criteria; impact on a participant's criminal record; and any other critical details. Applicants should also provide baseline data on prostitution-selling offenses for at least one prior year, including (at a minimum): the number of prostitution-selling arrests by age and gender; and a breakdown of case dispositions for prostitution-selling cases.

Targeted Investigation and Prosecution (CSEP): Applicants must describe how the proposed strategies will improve local investigations and/or prosecutions of sex buyers, traffickers, and/or other actors benefitting from the commercial sexual exploitation of people. Applicants should also provide baseline data on prostitution and sex trafficking related arrests for at least one prior year, including (at a minimum): the number of arrests by age, gender, and offense; and a breakdown of case dispositions by offense. Offense data should include (at a minimum); prostitution-buying; prostitution-selling;

promotion of prostitution; aggravated promotion of prostitution; compelling prostitution; child sex trafficking; and adult sex trafficking.

Requirements for all projects:

Trauma Informed Response: Each application should include proposed strategies to ensure that individuals experiencing commercial sexual exploitation receive a trauma informed response. A trauma informed response for this population should not be contingent upon a direct outcry of victimization.

Community Collaboration: Applicants from communities with an existing human trafficking task force or coalition must upload documentation of active membership in the task force or coalition. Applicants should also upload letters of support from any partners critical to achieving the proposed objectives. All documents must be uploaded onto the Upload.Files Tab prior to the submission and certification of the eGrants application.

Performance Management: Each application should clearly identify the goals of the project, including methods for evaluating progress toward those goals. Additionally, recipients of funding under this announcement may be required to participate in a third-party evaluation funded by PSO and in improvement reviews performed by PSO program staff. Grantees must make good-faith efforts to follow recommendations by the evaluator and PSO staff – including recommended project modifications – as a condition of ongoing funding.

Data Collection: All applications are expected to affirm the ability to collect data related to the local response to commercial sexual exploitation; at a minimum, this includes the following individual-level data for prostitution and sex trafficking offenses: System Person Number; Date of Birth; Gender; Race/Ethnicity; Date of Arrest; Charge 1; Charge 2 (if applicable); Date of Final Case Disposition; Case Disposition; and Sentence. Grantees may be required to provide data to PSO or a designated third-party evaluator.

Guiding Principles: The Child Sex Trafficking Team conducts its activities in alignment with its guiding principles. Partners and grantees are expected to adhere to these same guiding principles, where applicable. The level of commitment to these principles, as indicated by an applicant’s proposed strategies, may be considered in the merit review process and ultimately required as a condition of funding. CSTT’s guiding principles are:

- a. We treat exploited youth as victims and survivors, not perpetrators.
- b. We are collaborative.
- c. We are survivor informed.
- d. Our systems and programs prioritize the needs of exploited youth and strive to give equal access to services regardless of system involvement.
- e. We seek to prevent exploitation by educating the public, supporting protective factors for all youth, and by building the resiliency of our most vulnerable youth.
- f. Our approaches, systems and services are trauma informed and responsive, and include trust based relationships.
- g. We develop and support community-based, sustainable resources and services.
- h. We are committed to long-term individualized services, including planning for and re-engaging with youth after relapse.

-
- i. We research the causes of and effective responses to exploitation and we evaluate and continuously improve our activities.
 - j. We work to prevent and reduce demand for exploitation and to hold all exploiters, including facilitators and those who benefit from exploitation, accountable.
