RE: Model Homes plans project

Dear Mr. Narvaez,

Slay Architecture will provide the two set of plans for your budget amount of \$5000.00 by presenting plans based on the work we have done previously on similar projects and revising to adjust them to your needs. Per the TBAE (Texas Board of Architectural Examiners) under Texas Administrative Rules, we cannot affix our seal and signature on the drawings. Therefore, these will have the *"Preliminary Drawing- Not For Construction"* stamp. Anything issued from the Architect's office is copyright protected, however we will give you permission to use our design so that these sheets can be incorporated as part of a permit set as needed. This should not pose a problem since residential projects are not required by law to be signed and sealed by an Architect. Upon request, we can provide a proposal based on these terms.

Best regards,

A handwritten signature in black ink, appearing to read "Monica Guajardo".

Monica Guajardo, AIA
