Product Summary ^

This NorthStar Hot Water Pressure Washer Trailer with 2 Wands lets you spray hot water anywhere with no decrease in PSI, even when you use both guns! Commercial-grade 23.5 HP Kohler Command Pro V-Twin horizontal-shaft engine is engineered for long life. Industrial belt drive pump has brass manifold, ceramic plungers and safety relief for long-life in extreme conditions. Parker Hannifin Racor fuel filter and water separator prevents burner ignition problems. Diagnostic lights signal operation of key components. Rear hose-entry spray gun with split lance keeps the hose out of the way for easy handling.

This item is not for sale in the state of Alaska or California. Customers are responsible for checking local codes and regulations prior to purchase.

Note: This item is too large for a lift gate. Customer is required to provide a dock or forklift to unload.

What's Included

- (1) Pressure washer
- (1) Trailer

- (2) 4ft. lances
- (15) Quick-couple nozzles

Ultimate Performance

Cleans Faster, Saves Time and Money

Even the toughest grease, grime and oil are no match for this high-performance NorthStar 2-Gun Hot Water Pressure Washer Trailer. With up to 7.0 GPM and 4000 PSI of hot water cleaning power, this powerhouse does what cold water pressure washers can't — blast through the dirtiest, greasiest projects more quickly and easily — great for professionals and serious do-it-yourselfers demanding premium cleaning performance.

Powerful Kohler Command Pro V-Twin Engine

The muscle behind this NorthStar 2-Gun Hot Water Pressure Washer Trailer is a world-class Kohler Command Pro V-Twin engine. With overhead valve technology and high-inertia flywheel, it delivers peak power performance. Plus, a large recoil starter and dual ball bearings provide easier starts.

Superior Quality and Durability

Runs Cooler, Lasts Longer

The belt drive pump used in this NorthStar 2-Gun Hot Water Pressure Washer Trailer absorbs vibration to reduce pump fatigue and turns at a lower RPM to run cooler, resulting in a longer-lasting, smoother-running pump.

Greater Resistance, Longer Life

Small details make a big difference. The Cat pump used in this high-performance NorthStar Hot Water Skid Pressure Washer is designed with high-end ceramic plungers to provide maximum resistance to corrosion and abrasion, helping to extend pump life.

Rugged and Road Ready

We packed all this industrial cleaning power on a 7000-lb. capacity trailer complete with lights, tandem axle and an aluminum truck storage box for organizing tools and chemicals.

Convenience Features

The NorthStar 2-Gun Hot Water Pressure Washer Trailer goes beyond power and performance. You get a variety of convenient features, including two hose reels, diagnostic indicator lights and a Parker Hannifin Raycor™ fuel filter and water separator to prevent burner ignition trouble. Plus, a full complement of accessories is included.

Proven Quality

Unparalleled Testing

No one builds pressure washers better. And no one tests pressure washers more. Northern Tool + Equipment engineers put each NorthStar pressure washer component through a series of extensive, real-world procedures in our Faribault, MN testing facility and in the field. Before you put your pressure washer to the test for the first time, you can feel confident that we already have.

Setting the Standard for Over 20 Years

For over two decades, NorthStar has set the standard for quality, performance and reliability. Contractors, professionals and do-it-yourselfers trust the superior quality of NorthStar to get the job done right the first time, every time.

The NorthStar Advantage

Durability and Protection

NorthStar pressure washers are built to last using the highest quality components and materials. To give you extra peace of mind, we stand behind our product with a 2-year limited warranty.

Guaranteed Satisfaction

Shop in complete confidence, knowing Northern Tool + Equipment protects your investment and is ready to provide you with the assistance and helpful resources you need.

Superior Service and Support

Should you ever need service or support, help is a phone call or e-mail away. NorthStar's field-trained technical staff is ready to help. For convenience, our professional in-store service department performs all repairs on site. Replacement parts are stocked at our Northern Tool + Equipment warehouse and ready to ship the same day your order is received.

Features + Benefits

- Horizontal shaft engines last five times as long as vertical shaft engines
- 7 GPM/4,000 PSI from 1 gun OR 3.5 GPM/4,000 PSI from both guns
- Contact with water or oil will not damage insulation; upon drying the insulation regains its original shape
- Uses 1/2in. Schedule 80 extra-heavy pipe
- 525-gal. tank capacity
- Adjustable temperature
- Pump has brass manifold, ceramic plungers and safety relief
- Uses 1/2in. schedule 80 extra-heavy pipe
- Trailer has lights and brakes on both axles
- Forged brass manifold gives improved strength over cheaper aluminum
- Easy Start stops pressure build-up during start-up
- Adjustable pressure for job versatility
- Sight glass lets you quickly check pump oil
- Jack and aluminum truck storage box
- 2 high-pressure hose reels
- Hose guides allow hoses to unwind from rear or side of trailer
- 22mm quick connection makes it easy to use multiple attachments
- 12V DC automotive or marine battery not included
