### Profile

Steven Land Tillotson is an architect with broad experience in historic preservation, historic resource planning and architecture. He has produced a variety of award winning civic and institutional projects throughout Texas and is noted for his sensitivity to the cultural landscape.

He has worked for the Texas Historic Commission as grants monitor and was a Main Street design consultant for the early years of the state program. Past work in preservation includes the Alamo Plaza Master Plan, restoration of the Steves Homestead, and historic structures reports for the courthouses of Wilson, Hays, and Hopkins counties. Excellence of his work has been recognized by preservation awards from the National Trust for Historic Preservation and Preservation Texas for the restoration of Main Building Our Lady of the Lake University and Roma NHLD Plaza and Visitors' Center.

Steven has extensive work in South Texas and the Borderlands from South Padre Island to Eagle Pass. **Projects in Laredo include the Laredo Civic Center Remodelling, for Texas A&M International University the Administrative, Library and Classroom Building, the Laboratory, Classroom and Kinesiology Buildings, master plan revisions with the Lamar Bruni Vergara Planetarium and Science Center, and the 2010 Laredo Downtown Master Plan.**

Recent historic resource planning and design work includes San Pedro Creek Park, a 2.2-mile long new urban park restoration and redevelopment in downtown San Antonio and historic resource planning for the c.1917 Robert B Green Hospital building and campus for the University Hospital System.

An ardent investigator of the urban process, his original and unique research has mapped the urban geomorphology and succession of historical episodes that defines the complex cultural landscape of San Antonio.
