

WEBB COUNTY VEHICLE USE POLICY

While driving a County vehicle, employees are engaged in an activity that represents the County to the general public. For many constituents this activity represents the only contact they will ever have with a County employee. Therefore, all authorized drivers are reminded how important it is to convey a positive and professional image. To help accomplish this important task in a responsible manner, authorized drivers are expected to know and comply with all applicable State/Local Laws and County policies. Failure to comply may result in the loss of authorized driver status and disciplinary action up to and including termination.
