RESOLUTION ON MEDICAID BENEFITS SUSPENSION LEGISLATION

WHEREAS, the growing number of persons with a mental illness being detained in county jails has resulted in profound increases in county jail costs while poorly serving the health needs of these individuals; and

WHEREAS, this change has resulted in counties taking new approaches and broadening services to many inmates; and

WHEREAS, Medicaid eligibility is automatically terminated upon an individual's detention or incarceration in a county jail, but termination is not required by federal law; and

WHEREAS, upon release, former inmates must submit a new application for Medicaid enrollment and it can take months for benefits to be restored. Such disruptions in care increase an individual's risk of recidivism, re-incarceration and mortality post-release and ultimately increase costs for counties; and

WHEREAS, swift reinstatement of health care benefits upon release provides for more effective re-entry into the community and promotes the continuity of care for substance abuse disorders, behavioral health issues and other chronic health conditions; and

WHEREAS, as of December 2014, 12 states had a policy to suspend instead of terminate Medicaid coverage when an individual is incarcerated or detained and the Federal Centers for Medicare and Medicaid Services (CMS) has encouraged states to end the practice of terminating benefits; and

WHEREAS, on local option of the Sheriff, personnel operating the jail can provide timely information to the State regarding persons booked into county jail that will result in suspension of benefits, rather than termination;

NOW THEREFORE, BE IT RESOLVED by the Commissioners Court of Webb County, that Webb County supports the passage of legislation that will result in suspension of inmates' Medicaid benefits rather than termination, with benefits resuming upon discharge from incarceration.

ADOPTED this 28th day of November, 2016.
