

Amendment 1
To
AGREEMENT FOR ENGINEERING SERVICES
WEBB COUNTY AND PORRAS NANCE ENGINEERING
MIRANDO WATER WELL PROJECT (TXCDBG CONTRACT #7219095)

The original contract, dated **November 23, 2020** by and between **WEBB COUNTY**, a political subdivision of the State of Texas (hereinafter called "County") and **PORRAS NANCE ENGINEERING**, (hereinafter called "Engineer") to provide Engineering Services (to include construction plans, specification and estimates) is hereby amended in the following respects:

Strikethrough and bold language is deleted and underlined italicized bold language is new amended language.

Page 1., General Project Description:

The upgrade of the current Mirando City Water Supply Corporation (MCWSC) water system to provide a reliable source of water. Plans and specifications shall provide the necessary information to General Contractor(s) in order to drill one (1) water well (water well no. 4) approximately four hundred feet (400 ft.) in depth and install a submersible pump, pump motor, a well head motor and well housing. To include the installation of a phase three (3) electrical conversion at well site and the installation of twenty-one thousand one hundred and twenty linear feet (21,120 LF.) of a (~~4~~ 6" distribution line. The transmission line shall run west from the water well for approximately four and one-half (4.5) miles to a six-inch (6 in.) main line that runs north and parallel to Highway 649. Construction of new main water line shall tie into Mirando City system. The capacity expectation is to handle up to 75,000 gallons per day.

Being a proposed ~~4" or~~ 6" diameter PVC transmission main, which will replace the existing 4" main that was laid at existing grade over 10 years ago, requires a new main to be installed in an open trench, centered within existing easements. The finalized plans, specifications and bidding documents will be submitted to TCEQ and TOA for comment and/or approval prior to construction.

The project may be paid for in whole or in part with financial assistance from the State of Texas. The State of Texas nor any of their departments, agencies, boards, or employees is or will be a party to this Agreement or any subagreement. The ENGINEER agrees to perform the various professional engineering services for the planning, design, and construction of said Project in accordance with the provisions of this Agreement.

SECTION E -CONSTRUCTION STANDARDS - ITEMS

The project consists of:

The first phase of the project consists of plans, specifications and bidding documents for a ~~4" or~~ 6" diameter PVC transmission main which will replace the existing 4" main : Topographically survey the main alignment, develop construction plans, and stake the final alignment. *The well and main improvements may be bid separately.* Construction administration services will include review of contractor's shop drawings, pay application requests , periodic inspections of construction progress and project close-out documentation.

The new main will be installed in open trench , centered within existing easements. The finalized plans, specifications and bidding documents will be submitted to TCEQ and TOA for comment and/or approval prior to construction.
